

DEMOLITION OF SOCIETY

(Continued from Page 3, Column 3)
developing showdown in Berkeley between the radical forces, whose "Supreme Command Headquarters" would appear to be the University of California campus, and the people whose families have built such a beautiful little city on the slopes of the Berkeley Hills overlooking San Francisco Bay, the Golden Gate, and the glittering Pacific metropolis of story-book and song.

We decided to go to Berkeley and dig out the facts. After interviews with newspaper editors on the scene, police authorities, and undercover intelligence operatives, members of Governor Reagan's staff, groups of concerned citizens, and a day spent probing the situation on the University campus with its 27,000 students (mostly graduate students) from 50 states and many foreign countries, we don't feel so sure it couldn't happen in Berkeley.

It Could Happen Anywhere

Some of the facts revealed by our reportorial digging in and around Berkeley, are, yes, fantastic; certainly unbelievable for most Americans. We hope this report will awaken millions of citizens to some of the perils confronting us inside America — for what happens at Berkeley on April 6 (and thereafter) could be made to happen any and every place in America.

We investigated in depth the Communist-conceived Black Panther referendum in Berkeley for "Community Control of Police;" the larger, more significant effort of the combined radical movement to seize control of the city government; the spread into the hills of northern California of armed "communes" whose members are building well-trained revolutionary cadres to carry on an expanding guerrilla warfare; and the thoughts of police authorities in Los Angeles and San Francisco on a shift in the nature of the revolutionary forces bent on creating chaos and panic as a prelude to seizure of control throughout the nation.

All Power At Stake

One showdown will be on April 6, when Berkeley's municipal elections are held. The Panthers, through their "National Committees to Combat Fascism" (NCCF), already have succeeded in the first step of their strategy, adopted at the Communist-controlled Black Panther "United Front" revolutionary conference at Oakland, July 18-20, 1969. They have obtained far more than the required 16,000 legal signatures and have thus placed officially on the April 6 ballot an amendment to the Berkeley City Charter which would give the Panthers control of a part of the police department and the power to virtually destroy law enforcement.

The bigger goal of the radical coalition (which includes the Panthers and about 80 other radical organizations) is control of the city government, including the school board, the entire police department, the courts — the very life and resources of this famed university city of 113,000 population.

What makes the Communists so happy is that even if the Panthers' "Control of Police" referendum fails, its provisions would be activated if the radical candidates succeed in gaining control of the city government, which now seems a likely possibility.

Mike Culbert, Editor of the Berkeley Gazette, told us the referendum has about a 50-50 chance of passage and that, due to a truly fantastic election law provision requiring only 90-days residence for voting eligibility, a slate of City Council candidates and a Mayoral candidate backed by a radical coalition has better than a 50-50 chance of winning control of the city; and, if they do, Mr. Culbert says, they would do the things the Panthers want done.

A Marxist-Type Rule?

"Make no mistake about it," he said: "The latest drive by the combined Berkeley Left to destroy the Berkeley Police Department (legally if possible) is a genuine threat to the existence of Berkeley in recognizable form." He went on to say that if the radical slate of candidates running for four City Council seats and the Mayor's office should

win, a Marxist-type rule might well become a reality. Another Berkeley citizen, one who is working undercover with various police intelligence units, went further than "might become." He told us: "We would have a completely Marxist-Maoist government in control of our city."

The Black Panther referendum would, if approved, abolish the present police department. It would divide the city into four districts — two in which White residents are predominant; one in which Negro residents are predominant, and one embracing the university community melting pot in the southwest part of the city. The Blacks then would control police hiring and firing in their area; university students, faculty and "street" people would control their area; and white residents would have control in the two white areas, which are separated by the big Negro district.

We have heard Bobby Seale, National Chairman of the Black Panther Party, say that "Community Control of Police" should not be viewed by his comrade revolutionaries as an attempt to gain power "within the system." He said it was a "first step" in revolutionary seizure of power, and that, if the referendum did not prove to be a successful instrument for gaining "first step" control in cities throughout the nation, it was nevertheless a powerful device with which the Panthers could attract the Negro masses into a cooperative undertaking. The non-Communist masses, once they are working with the Panthers in such a project, will be better candidates, Seale explained, for recruitment into the Panther's revolutionary ranks and ultimately into the armed force required to overthrow "American Imperialism." More than 16,000 Negroes and whites signed petitions and thus are aiding the Panthers in their Berkeley grab for power.

The *Daily Californian*, student newspaper of the University of California at Berkeley, which serves its 27,000 students, several thousand faculty, perhaps 10,000 "street people," has become a powerful voice for the political coalition. A January 8 editorial urged "Seize the City!" The editorial said: "The April 6 Movement, a campus organization . . . has undertaken the task of registering 10,000 voters before the deadline (April 6 city elections), and time is running out. Go to the table at Sather Gate (historic university entrance) to register and volunteer to help . . . The NCCF Community Control of Police measure will be on the ballot, along with four City Council spots and the mayor's office. The present Council and Mayor are scared . . . Too late . . . We want the city and we want it now!"

When we observed the outward character of the present U.C. student body, browsed through wide-open Communist bookstores ringing the campus, inhaled the marijuana clouds drifting down onto the streets from the second-floor hippie "communes" on Telegraph Avenue, and viewed the fierce revolutionary fervor of Black Panther and other radicals stirring up revolt all over Berkeley, our grave fear for the future of Berkeley — and for our nation — was deepened. This is happening at the intellectual heart of America! And it is spreading!

POTPOURRI

By WILLIAM J. O'BRIEN

A college paper (University of Maryland) recently held a nation-wide pornography contest! The publisher refused to print this particular issue, branding it the rottenest and most blasphemous he had ever seen . . . Half the students at City College, New York City, are dope users — dope use has threatened the very existence of the college . . . According to reliable sources, over sixty per cent of American teenagers are either hooked on dope or have at least experimented with it . . . According to an A.P. release, July 18, 1970, former "anti-communist" Billy Graham, who has the brass to pose as a clergyman, stated: "I have taken part in a marijuana party in the U.S., despite criticisms against it." . . . Maybe some day soon we will start to fight both enemies of this country, the Communists and so-called anti-Communists.

Satanism growing among teenagers at an alarming rate. In New York City, there are mediums 12 and 13 years old. Here is a pertinent news item, courtesy *Divine Love* (Fall, 1970): "Blame Satan fans in church damage: Norman, Okla., June 24 — Members of a secret teenage fraternity, professing devotion to Satan, were blamed for four instances of vandalism at churches in Norman during the last nine months. Police said the boys were members of the 'Covenant of the 73rd Demon!' They said members were dedicated to vandalizing churches to prove their loyalty to the devil." There are also notorious west coast Churches of Satan and a 'Church of Satan' recently opened in Cincinnati . . . Male sterilization, *vasectomy*, has been urged by Dr. Helen Edey, of the Margaret Sanger Research Bureau, New York City, as the most effective form of birth control possible. According to Dr. Edey, voluntary sterilization is legal in every state of the Union, except Utah and Connecticut.

FLORIDA: A bill that would legalize a person's right to arrange in advance to have himself killed at some future date, should life become unbearable, is pending in Florida State Legislature. It is Bill No. 2671, introduced by Dade County Democrat, Dr. Walt Sackett.

Culture Distortion Marches On! . . .

EVEN CANNIBALISM

CALIFORNIA: When local law enforcement officials raided a so-called "free university," the Central Coast Free University, they found the usual assortment of drugs, hippies, and paraphernalia of revolution and degeneracy. However, a new dimension was added this time . . . cannibalism, on which a course was offered. Printed matter pertaining to the course reads: "Participants in this co-op should be willing to help obtain some freshly killed human flesh and/or prepare it and/or eat it. We will meet weekly at a communal Sunday evening meal which we will all help prepare together, everybody cooking their own creations until we can obtain some human flesh. We will first consider the historical and legal status of cannibalism."

CHILDREN

NEW YORK CITY: The Invisible Government has decreed, through the gangster-type judiciary that represents *them* not *us*, that children shall be "protected" from cruel parents who refuse to support them, especially if that parent thinks his or her child's "hippie" life stinks. A prominent New York lawyer who refused to support his daughter for the above reason, was bluntly told by the judge to post bond for \$5750 (the total due for his daughter's college fees on which he had stopped payment) or face jail.

WASHINGTON: Your children are soon to become wards of the state. Powerful, satanic forces in our government want to control the wonderful-impressionable years of childhood, and destroy the holy innocents. According to Paul Scott: "They want to create a new world for you that accepts new types of families besides the traditional nuclear family, consisting of father, mother and off-spring living together. The new life style would include communal group marriages, single unwed parent families, and even homosexual families with children . . . The meeting (White House Conference on Children) and its staged controversy was carefully planned to create public support for the adoption of new child control legislation designed to give the government a major role in raising the nation's children."

And just who do you suppose directed Nixon's "White House Conference on Children?" None other than Stephen Hess, a financial protege of the notorious Stern family of New Orleans. Hess has been an associate fellow of the infamous *Institute for Policy Studies*, financed by the Edgar Stern Family Fund, Ford Foundation and Warburg interests . . .

GOD GIVE U.S. A LEADER . . .

Common Sense.
